DETAILED ACTION

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the signs adhered to the display board must be shown or the feature(s) canceled from the claim(s). No new matter should be entered. Applicant only shows indicia/numbers on/in the display board.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

1. Claim 1 is objected to because of the following informalities: Claim 1 recites "and facing correspondingly ones of gaps of the inner frame". It is not clear what applicant is intending to define by this phrase. Applicant fails to mention a lighting device until line 19 and in line 19 recites " thus, light emitting device can emit light", which is also grammatically incorrect. In line 20 applicant recites "the gaps of the inner frame", it is unclear if applicant is referring to the originally mentioned inner frame or another inner frame since "inner frame " is not preceded by "said". Claim 2 is written in two sentence form. Claims must be written in only one sentence form, in other words the claim must start with a capital letter and end with one period. Appropriate correction is required.

Allowable Subject Matter

2. Claims 1-5 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter: The statement for the indication of allowable subject matter can be found in the previous office action dated 03/09/05.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Lan.

Art Unit: 2875

See above.
